Conservation and Home Maintenance Workshop

This workshop is a great source of information for homeowners, property owners, and small business owners interested in conserving and maintaining their natural and energy resources. By implementing ideas discussed in the mini-workshops, attendees will be able to use the techniques in their own home/business not only to maintain and keep their natural resources healthy, but also to save energy and money. Keynote speaker will be Anna McCartney of PA Sea Grant, focusing on the topic “Maintaining Healthy Watersheds—Disposal of Pharmaceuticals and Personal Care Products”.

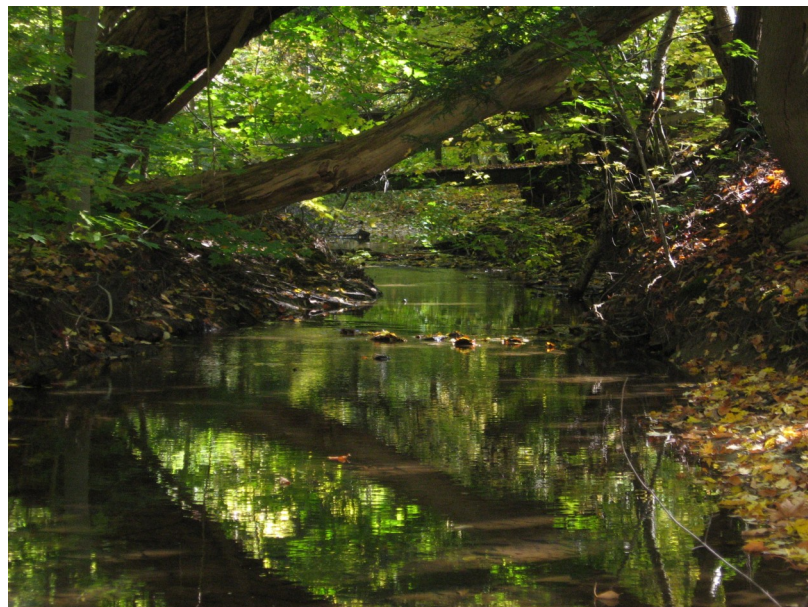

Door prizes will be awarded!

Topics:

- Pond maintenance
- Pest management
- Hazardous household waste disposal
- Driveway care
- Septic/well maintenance
- Home energy conservation
- Lawn care and more

ECCD is located near the route 8 exit off of I-90
